About us

Designs unlimited is a new generation design enterprise in the home textile industry. True to its name, Designs unlimited weaves magic through unlimited designs and delights customers with imagination and innovation. We are an associate company of a highly regarded player in the global textile industry - Sulochana mills, Tirupur, India. We offer a comprehensive product range across home textiles focusing on countries like US, UK, Europe, Australia , Newzealand and UAE markets.

Vision

Our vision is to achieve market leadership in the home textile industry through the route of customer delight and be responsible corporate citizens by sharing our gains with the society.

Our Values

Supreme quality

On-time delivery

Employee welfare

Environmental care

Quality

We always adhere to best contemporary global trends. We use premium fabric along with first degree stitching standards for a perfect fit and finish. We provide utmost care to quality from procurement of yarn to delivery of finished products.

D1 Designs UNLIMITED

Our guiding philosophy is to strive for excellence...

We are guided by a philosophy to strive for excellence in all that we do through socially and environmentally acceptable means. Our philosophy drives us to be an expert in gauging the market and adopting apt technology. We are technically very sound in yarn, fabric and made-ups. We are the market experts in dobby fabric, jacquards, yarn-dyed, novelty yarn techniques in weaving and made-ups.

Financial strength

Financial stability is one of the critical success factors in this industry and we are proud to have it as one of our major strengths. Our relationship with Sulochana mills ensures that not only our think-tanks but our pockets are also very deep!

Innovation

In this competitive world, innovation and concept design is our major motto to be among the leading market players. We are driven by pride in creation and imagination at work. We are bound to come up with constant innovations in fabric, texture, design and confection.

Unlimited designs

To bring on the unlimited designs for our customer needs, we seek inspiration from the most happening trends. We challenge ourselves to better our designs all the time and to support our creative needs, we use softwares like textronic, techman (CAD advance HE) and Point gare for design.
